Art Unit: 1797

1. Claims 1, 4, 6-12 and 74-75 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 1, it is unclear how the plurality of metering tips disposed in the retaining stations relate to the sealing mechanism and tip stripping mechanism. That is, if the tips are already disposed in the retaining stations, how do the sealing and stripping mechanisms act on the tips?

2. The following claim amendment drafted by the examiner and considered to distinguish patentably over the art of record in this application, is presented to applicant for consideration. Note that the amendment serves to clarify the claims by more clearly stating that the sealed tips are disposed in the retaining stations after action by the sealer and stripper, as argued by applicant in the Remarks filed August 3, 2007.

In claim 1, lines 7-8, delete "disposed in said plurality of tip retaining stations".

In claim 1, line 12, after "sample liquid" insert --to form a plurality of sealed metering tips--.

In claim 1, line 14, insert --sealed-- between "said" and "metering".

In claim 1, lines 14-15, delete "following ...sealing mechanism".

In claim 1, line 15, after "analyzer, insert --and into one of said plurality of tip retaining stations--.

In claim 1, line 17, insert --said-- between "one" and "sealed".

In claim 74, change "position" to --station--.

Art Unit: 1797

3. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

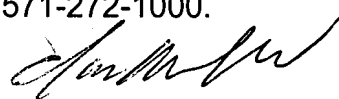

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
